

From our Austin TX Solar Window Screen WebSite [www.JoshHobbs.com](http://www.JoshHobbs.com) we offer

- Our Installed **Solar Screen Pricing** for Austin TX Homes, Houses, Businesses and Commercial Buildings. We only service the Austin TX area.
- We have 25 Color Combinations of Solar Window Screens for you to choose from.
- We only use the industries highest-end, toughest, longest lasting, most durable Solar Window Screen Fabric made, Phifer Suntex. There's not a better Solar Window Screen fabric out there that we could use to make our solar window screens out of.
- We offer 80% and 90% Shading Densities. The 80% is ideal for most of your home's, house, businesses / commercial building's windows; however, here in Austin TX our Summers get extremely hot, therefore the West facing windows of the home should warrant the 90% fabric. We explain this on our website here. **80% vs 90% Solar Screens**
- For FREE from our website, if you live within our Austin TX service area, you can request a sample kit from our website. For free we will mail you our fabric samples so that you can first-hand see the superior quality of our Phifer Suntex Fabric and the five colors and 80% and 90% shading densities that the fabric comes in. Additionally within this sample kit we include five frame color samples to help you choose what color of framing you would want.
- We have three pages of 250+ Hi-Resolution pictures on our website so you can see the various color combinations that have put on the various home's. Our **Solar Screen Pictures (Pg1) (Pg2) (Pg3)** will help you to see what color combination would be best for your home as well as you can see what the solar screens look like against the various different exteriors of homes. Once we see your Home, House, Business / Commercial Building, we of course will help you pick an appropriate color combination. We want to make sure you pick the ideal color combination for your exterior, so we will always offer our recommendation of what would be best.
- On our website we have an exceptionally thorough **Solar Screen Questions and Answers** Page dedicated to answering all your questions you have about us and our solar window screens. This page is very detailed with the likes of illustrative aids like drawings, pictures and videos.
- We have a page we made of videos that explain how we install our solar screens on the various types of windows we have here in the Austin TX area. Here in Austin TX we have many types of windows, windows that differ from the rest of the country (every area of the country has their own kind and make of windows unique to the manufacturers of that area, unique to the era / many years of manufacturing within that area). We often get asked how we install our solar windows screens, so we made this page to illustrate how we install our solar screens on the various windows that we have here in the Austin TX area. **Videos of How We Install**
- There's no better way to get a feel for a company than first-hand experiences from that of their customers. We have collected and posted 300+ reviews from our solar screen customers here within these pages for you to review. **Customer Feedback (Pg1) (Pg2) (Pg3) (Pg4)**

Requesting the installation for our custom hand made solar window screens that we make specific to the windows of your home, house, businesses / commercial building from our WebSite [www.JoshHobbs.com](http://www.JoshHobbs.com) could not have been simpler.
